The 12 Principles of Attitudinal Healing

The essence of our being is love.

Health is inner peace. Healing is letting go of fear.

Giving and receiving are the same.

We can let go of the past and of the future.

Now is the only time there is and each instant is for giving.

We can learn to love ourselves and others by forgiving rather than judging.

We can become love finders rather than fault finders.

We can choose and direct ourselves to be peaceful inside regardless of what is happening Outside.

We are students and teachers to each other.

We can focus on the whole of life rather than on fragments.

Since love is eternal, death need not be viewed as fearful.

We can always perceive others as either extending love or giving a call for help.

Vision Statement

St Michael's Catholic Primary School is a welcoming community, embracing the Gospel values of faith, hope and love. We provide a Catholic education that nurtures the development of all children to their full potential. Through Christian witness, we offer a safe and supportive learning environment for the families in our school

We would like to acknowledge the Aboriginal people and their ancestors who are the Traditional Owners of this land. May we and all Australian's, Aboriginal and Non Aboriginal, continue to be committed to the ongoing journey of Reconciliation.

Dear Parents, Staff and Students

St Michael's will welcome Performance Tours next Tuesday to our school. They will be performing for our students, "My Friends and I". The performance is a blend of poetry, puppetry and humour with a strong message about positive relationships and bullying.

We have a small team of students who will be representing St Michael's at a tennis tournament on Thursday. (Cristian, Luke, Dasha and Evander) at the Bunbury Tennis Club. We wish them well and know they will represent St Michael's with pride.

God Bless
Phillip Rossiter

Allergy Awareness

A number of our students are allergic to certain food products that have traces of nuts. We would remind parents to be allergy aware when they are making cakes or food that is being shared by students in your child's class. When making school lunches or morning recess please avoid any foods or bars that include nuts. Thank you.

**What parents need to know about new Meningococcal ACWY (MenACWY)
vaccination program for children under 5.**

A Meningococcal vaccination program is available in WA for children aged 12 months to under 5 years, ending 31 December 2018. MenACWY vaccine helps protect against meningococcal disease types A, C, W, Y.

Meningococcal W was the type responsible for most of the recent cases in WA. MenACWY vaccine protects against type W meningococcal disease and also for type Y, which is also increasing in the community. The vaccine also protects against type C, already in the national childhood immunisation schedule, and type A, a type rare in Australia. This vaccine does not protect against type B meningococcal disease.

Studies have shown the effectiveness of MenACWY vaccine is between 80 to 85% and safe for children and adults. As with any vaccine, there may be some mild side effects, including injection site pain, redness and swelling, myalgia, headache, nausea, loss of appetite and fever. Serious vaccine reactions are similar to those of other vaccines and are very rare.

This program is in addition to the routine immunisation schedule, i.e. other childhood vaccinations should be given at the immunisation schedule points as currently recommended. Children who turn 12 months of age will be able to receive the free vaccine at their 12 month visit. Other children aged 13 months to <5 years should call ahead for an appointment so the provider can ensure the vaccine is in stock.

Eligible individuals can be vaccinated by GPs and at Community Health Clinics.

Further information is available by phoning the Regional Immunisation Coordinator on **97812355**, or at: http://ww2.health.wa.gov.au/Articles/J_M/Meningococcal-ACWY-Statewide-vaccination-program
